### Letter . . . To Our Readers

New York, N. Y. February 1, 1934

Dear Friends:

About two weeks ago we wrote a personal letter to all of our subscribers. We had a very gratifying response. Now we are writing a similar letter to you who buy FIGHT at the newsstands, bookstores or meetings.

Those of us who are working on the magazine—building an informative and militant publication in the struggle against War and Fascism—are wondering what you as a reader of FIGHT are thinking about the magazine.

Write and tell us what you think of the stories and articles, the photographs and cartoons, the general make-up. We have tried to build a magazine, both in appearance and content different from most militant publications. Have we succeeded? In telling us what you like about the magazine and in making suggestions for further changes and additions, you will help us in making FIGHT a better and more effective weepon in the struggle against War and Fascism.

One thing more. You, as a reader, realize the difficulties confronting a publication such as ours. How to secure new readers is a daily problem. Have you subscribed? Will you help us get new subscriptions? By subscribing you save some money. You get the magazine on time. You help us financially. Will you subscribe immediately? Will you secure during the next two works, three new subscriptions? We need your help. We are depending upon it.

And won't you write to tell us at the same time, what you think of the magazine?

Fraternally yours, FIGHT Against Wer and Fascism.

# here Are No Angels Backing Us

At the cost of personal sacrifices on the part of volunteer workers, members of our office staff, League officers and a few good friends, the work of building a United Front movement against War and Fascism has been initiated.

Organizational progress is reported from such key cities as Pittsburgh, Chicago, San Francisco, Erie, Buffalo, etc.

But this is only a beginning. Help us penetrate into every city and farm community in the United States. We could do more organization work if we would spend less time trying to raise money for elementary necessities.

Our overhead for rent, telephone, wages, postage, stationery, comes to only five hundred dollars a month.

Will you help us pay this small overhead (unusually, small for a national organization) so our energies could be released for organizational work?

Will you send us one dollar a month for the next year? Will you help us build the "invincible ranks against War and Fascism"?

Send your first dollar now and your pledge to:

AMERICAN LEAGUE AGAINST WAR AND FASCISM 112 East 19th Street New York City
